Video #4: Wholly Grail Pathway

Wholly Grail Pathway

I want to share with you now our Wholly Grail Pathway ~ a Way of Wholeness for Grail leaders to come together in synergy, co-creating meaningful impact as they fulfill their mission and *thrive*.

I often use a model I refer to as “concentric rings of intimacy and engagement.” I’ve used it in mapping out regenerative organizations, initiatives and communities.

In the concentric-rings model, the outer ring represents the people who are just beginning to engage, dipping their toe in to learn more and discern whether they resonate with the group. The more resonant people are with the values and core principles, the more they will progressively move toward the center ~ increasingly engaging and connecting with each other and the community. At the heart of the initiative are the trusted stewards ~ those who have so deeply embodied the principles and values that they become the role models and ambassadors, serving the entire community through their ways of being and their actions.

So, in Grail Leadership, the Wholly Grail Pathway begins with **Activating the Grail Codes**. Then, through increasing resonance, it moves into **Embodying the Grail Codes**. The center ring ~ with the greatest levels of resonance, intimacy and engagement ~ is all about **Radiating the Grail Codes**.

In fact, let me take a minute to explain what I mean by Grail Codes.

If you’ve been around New Age or spirituality circles, you may be cringing a bit as this term has become quite cliché {*There are galactic codes, light codes, downloading codes, sharing codes, transmitting codes* ~ and, yes, even “*activating*” codes.} The Knights of the Round Table lived by codes of chivalry, and there are ‘codes of conduct’ ~ sets of rules for the military, professions, schools and corporations. There are computer programming codes. For thousands of years, codes have been used to conceal and safeguard important messages. And there is the genetic code, made up of many different combinations of four nitrogen bases in our DNA.

Well, true to form, the Grail Codes are not any one of these definitions but a synthesis of all of them. I think of these codes as messages encrypted in our cellular layers, carrying information for ways of being that operate not by rules but by *resonance*. The Grail Codes are carrying information for our evolutionary future. They are **codes of Wholeness**, codes for living and leading in alignment with Nature's principles. In perfect timing for each individual, when in a resonant field, these codes are activated, releasing the information through our physical, mental and emotional bodies. It's like our ancient and future selves got together and wrote little love notes to our present selves, like "Hey amazing one ~ here's what you're going to want to remember now."

And that's the beautiful thing about this pathway. We're not trying to *teach* you anything ~ at some level **you already know** all of it. Our intention is that we come together in a resonant field where we can unlock, activate and amplify these love notes within ourselves; where we can remember and remind each other of our unique genius and our collective power as vessels for Nature to see and experience itself; where we can explore what's possible when we remember we are infinite beings co-creating in a universe of unconditional love; and where we can stand in awe and reverence as we witness the unspeakable beauty that emerges through us.

Activating the Grail Codes

So... the Wholly Grail Pathway begins with **Activating the Grail Codes**.....This ring is primarily focused on Whole Leaders ~ individuals who are on the path of Sovereign Unity and want to learn more about the fundamentals of Grail Leadership. This is where we begin to create a shared vocabulary and deeper understanding of our core principles and values.

Two key elements of the Wholly Grail Pathway are self-selection and coherence. At each ring, there are natural thresholds to support people who choose to go deeper and who are resonant with the other leaders in each of the bands.

Because Sovereign Unity and the harmony of polarities is central to Grail Leadership, we offer a threshold program called ***Quest for the Wholly Grail: the Heroic Journey Home*** that weaves together the archetypal Hero's Journey and Heroines' Journey into the wholeness of sovereign unity. This mini-course is mostly an affirmation of the incredible magic carpet ride of your life, allowing you to see the crazy twists and turns from a larger perspective and appreciate how courageous you truly are.

For those who want to take the next step, we offer ***Activating the Grail Codes: the Wholly Trinity of Grail Leadership***. This is a 21-day course that goes into more depth around the three core elements of Original Intention, Essential Genius and the

Flow of Nature ~ and how they weave together to unleash more clarity, purpose and thriving within the individual.

[pause so that the next paragraph can be deleted later]

This is intended to be a self-guided course. However, as we launch it for the first time, we will be offering it as **a group program**, including weekly watch parties with real-time chat and Q&A with me and Julia, as well as access to the community and tools to support greater integration and practical application.

Embodying the Grail Codes

The next ring is focused on Whole Systems and **Embodiment**. This is where evolutionary leaders will be having direct experiences of coming together with their peers in round tables.

So, for those who have gone through the Activation realm and want to step in deeper to directly experience Whole-Systems leadership in action, we offer ***Embodying the Grail Codes: Leadership at the Round Table***. This is an 8-week group program, going into much greater depth around how the Wholly Trinity of Original Intention, Essential Genius and the Flow of Nature works in round-table organizations. As we move through this program as a group, we'll also dive into the principles that come into play at the Round Table ~ like the Beyond Field, Mutual Thriving, and even our Toroidal Abundance economic model, to name just a few.

Once you've moved through this program, you'll be able to engage in the round tables that will naturally begin to self-organize as people come together to directly experience the power of this model.

We are imagining a variety of round tables ~ including some focused on individuals supporting each other in a sort of mastermind approach; some that are centered around specific organizations and their leadership teams who are implementing round-table leadership; and others focused on a specific topic {for example, syntropic farming} to share information and best practices.

Radiating the Grail Codes

The center ring is all about generating Whole Impact.

Over time, there will be a natural arising within the community of those who are so deeply embodying Wholeness, and have been implementing whole-systems models in

their organizations, that they are **Radiating the Grail Codes**. These are the role models, the living embodiment of Grail leaders who are stewards in their communities.

With these leaders, we will begin to form ‘Synergy Spheres’ ~ where multiple, complementary organizations come together to share resources and support as they contribute their essential genius to a shared purpose. This is where we’ll be prototyping and generating massive impact that ripples out as inspiring examples of Wholeness and mutual thriving at the ecosystem level.

{I gave a possible example of this earlier when I described the six regenerative organizations coming together around food sovereignty.}

As part of our Toroidal Abundance model, these Synergy Spheres will be funded by the income from the programs in the outer two rings {after operating expenses are covered, which will be fully transparent}.

We’re really excited about this aspect, as we will be able to bring into reality a vision we’ve held for years. We believe that the leaders who have devoted their entire lives to embodying these principles in integrity, leading regenerative initiatives that beneficially impact people and the planet, should not be asked to pay to bring their essential genius to the round table. In fact, we envision attracting philanthropic funding to help fund these ecosystems of initiatives, actively supporting the innovations that hold the greatest potential to generate healing of people and the planet at a tremendous scale.

Wholly Grail Pathway

So, that is the Wholly Grail Pathway {at least as we see it today}.

We look forward to getting to know you and to seeing your mission unfold, as you bring your unique gifts to the round table of this amazing, mutually thriving world.

Thank you for joining me in exploring the Way of Wholeness, a way where you can authentically live your mission and thrive.
